

ROCKRIDGE

NORTHAMPTON, MASSACHUSETTS

Rockridge is situated just outside the picturesque New England town of Northampton on a 12 acre site adjacent to the Fitzgerald Lake Conservation area. The project included the addition of 12 Assisted Living Cottages and 30 Assisted Living Apartments to an existing level 4 health care facility. The 12 cottages are linked to the main facilities through an enclosed corridor system giving residents both independence and direct access to the new common areas.

The new community features elegant formal dining rooms, private dining room, library, parlor, country kitchen & store, fitness and recreation rooms. Future phases include transforming the existing 3rd floor wing into Alzheimer's care, renovating the existing 1st & 2nd floors into Assisted Living and a complete renovation to the existing commercial kitchen.
