

Ashlar Village is an existing retirement community consisting of 72 Villas, 172 independent living apartments and 57 assisted living apartments located on a beautiful portion of the Masonicare campus in Wallingford, CT.

The Project consists of an expansion of the retirement community by 40 Villas and 135 (all two bedroom and larger) IL apartments and commons spaces. The master plan as envisioned organizes the project around a continuation of the "Central Park" theme inherent in the original construction. The majority of the apartments will benefit from multiple exposures and views onto the internally formed park features, while the Villas are sited to benefit from the mature surrounding woodlands.
